Subject: Re: Dimock Data Review Plan

When you guys figure out a format just please email me with idiot proof directions on the boxes to populate. If possible, it would be nice to have the homeowner ID included somewhere in the sample ID for easy interpretation.

Another issue - we will need a section for a physical address and mailing address (or maybe not - but its my suggestion so we can do mailings) - and one thing I do know is that we don't have a complete list for either. I will do my best to fill in those locations as well but my suggestion is that when we have the residents sign the access form for sampling we have them fill in a line for a mailing address and a physical address. I have all the access forms that Kelley worked on saved on my laptop so I can make the appropriate revisions.

my 2 cents.

thanks-
